ers to Exercise Caution. New Orleans, December 12. The cotton sirket was quite active at the opening at

for futures predicated upon further troubles in the New York market for securities
and money had the effect of causing local
buyers to move with extreme caution. Sales
osas hales, including 23% to arrive. Quotations unchanged.
Futures opened with an advance of 1 to
2 points and moved up 2 to 3 points additional. Financial conditions in New York,
which caused the Wall struct bull clique to
throw averboard heavy lines of long cotton, caused contracts in that market to
breek badly. The decine thus precipated
in New York was calcive reflected in this
market and values gave way 7 to 8 points.
The decine was checked about 11 30 s. in,
by Secretary Hester's shawing of a very
light weekly movement of the coop into
eight, and prices reacted about 4 points,
saving the market at the close 2 to 4
points lower than yesterday's close.

since all over your country 11,000,000 as ilmates were sent out, and figures now point
ing to a 9,000,000 crop will not last.
About the only reason why cotton did
not advance today was the weak condition
of the New York stock market during the
forenoon. Many longs realized, fearing the
demoralization in Wall street would be
extended to the cotton exchange before the
close, but it didn't. Cotton ruled dull and
steady, closing prices being unchanged to
4 points down in New York and 1 to 4
down in New Orleans. Shots were quoted
unchanged in all markets, with better hust
uses.
